Mark,

We are working on the validations of SDG MF9L18 and MF9L61. I am projecting a completion date of Tuesday, July 9th.

Mr. Flores:

EA appreciates you providing us a copy of the validated laboratory data for Lane Plating. However, when going through the data, we have noticed that results for only two of the 20 sediment sample locations, and none of the groundwater sample results were included. Do you have a timeline as to when this data can be made available?

Thank You,
Mark Paddack
EA Project Manager

Kenneth,

Attached is electronically (S3VE) validated laboratory data for the above referenced Case/SDG.
